SERVICES COMMITTEE

November 3, 2009

1:00 P.M.

A G E N D A

1. Loading & Unloading - James (1)
2. Address & Firegate Identification/Numbering-
Lane (2-6)
3. Private Solid Waste Providers - Gorton (7-8)
4. Items in Committee (9)

"Services Committee, to which should be referred matters relating to public safety, public works, urban county courts, and constitutional officers."

Council Rules & Procedures, Section 2.102(3)

other than authorized by the director, division of traffic engineering shall erect any such sign or place any such marking.

Sec. 18-133. Obedience to loading zone signs.

(a) No person shall stop, stand or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a loading zone during hours when the provisions applicable to such zones are in effect. In no case shall there be a lapse in the loading or unloading of materials in excess of thirty (30) minutes except when so marked by appropriate signs. This permitted lapse in loading and unloading operations is for the sole purpose of accumulating loads, signing of material receipts and incidental necessary activities.

(b) The driver of a passenger motor vehicle (as described in section 18-137 of this Code) may stop temporarily at the place marked as a loading zone for the purpose of and while actually engaged in loading or unloading.

(c) Where loading zones or other public parking spaces are not available in the near vicinity, any passenger motor vehicle (as described in section 18-137 of this Code) engaged in loading and unloading may park for the expeditious loading or unloading of materials in any place otherwise prohibited for parking as long as such loading or unloading does not exceed thirty (30) minutes. The above exceptions do not permit double parking.

(Ord. No. 191-70, § 1, 8-13-70)

Sec. 18-134. Permit for loading or unloading at an angle to the curb.

The police chief or administrator of the traffic bureau is authorized to issue special written permits with the approval of the director, division of traffic engineering to permit the backing of a vehicle to the curb or over the sidewalk for the purpose of loading or unloading merchandise or materials subject to the terms and conditions of such permit. Such permits may be issued either to the owner or lessee of real property or to the owner of the vehicle and shall grant to such person the privilege as therein stated and authorized herein, and it shall be unlawful for any permittee or other person to violate any of the special terms or conditions of such a permit.

Sec. 18-135. Loading and unloading of materials prohibited in central traffic district during certain hours.

No truck parking shall be permitted in loading zones in the central traffic district for any purpose between the hours of 4:00 p.m. and 6:00 p.m. except where indicated by appropriate signs.

Sec. 18-136. Size of trucks limited in loading zones.

No person shall park a truck in a loading zone in the central traffic district for the purpose of loading or unloading, if such truck is longer than twenty-four (24) feet unless by special permission of the police chief or his authorized agent, except in the following areas:

- (1) Vine Street from Broadway Street to Rose Street.
- (2) Water Street from Broadway Street to Limestone Street.

Sec. 18-137. Identification of passenger vehicles using loading zones.

Sec. 17-2. Numbering property, buildings and fire gates; display of numbers.*

***Cross references:** Similar provisions, § 21-1(PM 302.2).

(a) For purposes of sections 17-2 through 17-4, the following definitions shall apply:

- (1) *Address*: A unique identification of a location which may consist of a number, direction, name, type, and unit.
 - (2) *Property number*: An identifying number assigned to a parcel of land.
 - (3) *Site number*: The common street address assigned to a location.
 - (4) *Building number*: The number, letter, or other designation assigned to a principal building. Where there is more than one (1) principal building on a property, each principal building will be assigned a building number, letter or other designation in addition to or instead of the site number. Where only one (1) principal building is located upon a property, the property number shall serve as the building number for said structure.
 - (5) *Principal building*: A structure such as an office building, apartment building, retail structure or other similar structure wherein the primary or major activity on the property takes place. The term as used in this section does not include accessory or incidental structures such as garages, storage sheds or similar structures. The division of planning shall determine whether, for purposes of this section only, a structure constitutes a principal building.
 - (6) *Fire gate*: Signage used to identify an access point to a location.
 - (7) *Private access easement*: The private right of a land owner to ingress and egress to his property over the adjoining property of another for the purpose of accessing the public right-of-way.
- (b) All properties within the urban county shall be numbered for the purposes of taxation, public safety and provision of services.
- (c) All principal buildings and leasable/salable portions of such buildings which have separate and direct outside entrances shall have the site number permanently and prominently displayed at the expense of the owners thereof.
- (d) The site number shall be clearly visible and identifiable at all times during daylight hours to persons in vehicles traveling in both directions of the street or named easement upon which the structure is located. A site number must also meet the following minimum criteria or standards of visibility:
- (1) The site number shall be a minimum of three (3) inches in height;
 - (2) The site number shall be at least three (3) feet above ground level; and
 - (3) The site number shall be affixed to the structure or displayed not more than four (4) feet from the right-of-way upon which the structure is located.
- Notwithstanding the above, where more than one (1) principal building is located upon a property and where the site number is clearly displayed at the street entrance to the property, each principal building shall not be required to display the site number so long as each building is clearly identified by a building number or letter.

(e) The department of public safety shall be the only department of the urban county government authorized to assign or cause to be assigned, delete, or change a property number, site number and/or a building number where appropriate so as to ensure no duplication of numbers or street names. The department of public safety shall maintain a street index file containing the official list of valid street names. No other government entity, agency, department or division is authorized to assign site, property or building numbers or street names.

(f) No private access easement shall be named without the prior approval of the department of public safety. All private access easements that are named with the approval of the department of public safety shall have a regulation street sign placed at each intersection of the named easement and any other named easement or street. The regulation street sign shall be purchased and erected at the expense of the owner of the private access easement unless the street sign is located at the intersection of a private access easement and the public right-of-way.

(g) The department of public safety is authorized to require the posting of fire gate numbers. When fire gate numbers are required by the department of public safety, all entrances to the affected property shall have a fire gate posted. Property owners shall contact the department of public safety to obtain, if required, a fire gate number for newly constructed entrances to properties or when a fire gate number is in need of replacement. All fire gate numbers shall be added or replaced by the department of public safety. (Ord. No. 231-89, § 1, 12-7-89; Ord. No. 3-96, § 1, 1-11-96; Ord. No. 329-2002, § 1, 12-5-02)

Sec. 17-2.1. Addressing.

(a) *Number.* All addresses must contain a number. No number may contain more than five (5) digits. Only whole numbers may be used in addresses. There shall be no nonsequencing of numbers contained in addresses. Number ranges shall be based on the Lyman Uniform Street Numbering System. The properties on Main Street, its extensions, and all thoroughfares parallel therewith shall be numbered east and west from Limestone Street and the properties on Limestone Street, its extensions, and all thoroughfares parallel therewith shall be numbered north and south from Main Street and shall be so numbered that the even numbers shall be on the south and east sides of the street and the uneven numbers shall be on the north and west sides of the street. A proper allowance of one (1) number per each twenty-five (25) feet of named roadway shall be used when properties are newly created.

(b) *Direction.* The directional terms of "north," "south," "east" and "west" shall only be used for addresses along streets crossing Main Street or Limestone Street as they extend to the Fayette County line. Such directional terms shall only be used as a prefix to the name of the street.

(c) *Name.* All addresses must contain a street name. Such names may contain a maximum of twenty (20) letters; however, such names shall not contain fewer than two (2) letters. The following are prohibited in street names:

- (1) Punctuation;
- (2) Numerical digits or numerical names;
- (3) Leading single letter phrases;
- (4) Initiating a street name with a directional term;

- (5) Confusing, obscene or irregularly spelled words;
- (6) Duplicate or closely approximate names of road streets;
- (7) Abbreviations, except for the following which may be abbreviated: (a) Fort shall be abbreviated as "FT"; (b) Mount shall be abbreviated as "MT"; and (c) Saint shall be abbreviated as "ST"; and
- (8) Use of the words "service", "street", "drive", "avenue", or "court".
- (d) *Type*. An address may contain the following street type, abbreviated as stated:
- TABLE INSET:

Aley	ALY	Pass	PASS
Avenue	AVE	Path	PATH
Bayou	BYU	Pike	PIKE
Bluff	BLF	Place	PL
Bottom	BTM	Plaza	PLZ
Boulevard	BLVD	Point	PT
Canyon	CYN	Rest	RST
Causeway	CSWY	Road	RD
Circle	CIR	Row	ROW
Court	CT	Service Road	SRD
Cove	CV	Spur	SPUR
Drive	DR	Square	SQ
Flat	FLT	Street	ST
Fork	FRK	Terrace	TER

Gateway	GTWY	Trace	TRCE
Lane	LN	Trail	TRL
Loop	LOOP	Viaduct	VIA
Oval	OVAL	Walk	WALK
Park	PARK	Way	WAY
Parkway	PKWY		

- (1) The term "SRD" is reserved for service road designation and shall only be assigned to streets by the urban county government.
 - (2) An address shall not contain a duplication of the type of street within its name (e.g., James Street Street). When an address contains the names of two types of streets, the first type becomes part of the street name and second type must be abbreviated (i.e., Fifth Street CT).
 - (3) Streets having the same name, yet designated as different types of streets, are acceptable only when the streets are contiguous and have unique number sequences.
 - (4) Structures must have frontage or an entrance easement to the street on which their address is assigned.
 - (5) Name and number sequence continuation across intersecting roadways shall also result in continuation of the type of street.
 - (6) Incomplete yet separate streets shall maintain duplicate names until it is determined that their connection is not applicable. Once the roadways are assessed as unconnectable, the addresses shall be changed to assign unique addresses for all affected segments.
 - (e) *Unit.* Structures with multiple units shall have each major doorway labeled with a range of numbers, letters or other designations when said doorways lead to groups of leasable/salable portions of a building. Unit designations shall be required for addresses of multi-divided structures. Such designations shall be used to distinguish individual suites, units, rooms, or apartments within the same building or structure. No more than five (5) characters may be used in such unit designations. Such designations shall contain only letters or numbers. If abbreviations are used, they must follow the United States Postal Service's Standards for Secondary Address Unit Designators.
- (Ord. No. 3-96, § 2, 1-11-96; Ord. No. 73-96, § 1, 5-16-96)

Sec. 17-3. Renumbering.

- (a) Whenever, in the opinion of the urban county council, it shall become necessary or advisable to renumber any or all properties and/or sites on a street, the department of public safety shall make a list of all properties and/or sites on such street and designate the numbers for all such properties or sites, and thereupon notify the owners, or occupants, if the owner be a nonresident thereof, to have the designated number properly displayed on such property or site.

(b) Any changes, updates or modifications to an address will require the submittal of a new, updated or amended plat or such other documentation as is required by the department of public safety or the Fayette County Clerk to give notice of such change, update or modification.

(c) Any property owner requesting a change or modification to a property or site address shall be responsible for the payment of all costs incurred as a result of the change or modification.

(Ord. No. 231-89, § 2, 12-7-89; Ord. No. 3-96, § 3, 1-11-96; Ord. No. 73-96, § 2, 5-16-96; Ord. No. 329-2002, § 2, 12-5-02)

Sec. 17-4. Maintenance of number display; defacement; noncompliance, penalties.

(a) The department of public safety is authorized to require the owner of any business or residential structure within the urban county from which the number, or any part thereof, has been removed or damaged to cause the same to be replaced at the expense of the owners thereof. The department of public safety shall also have the power to require the owner of any business or residential structure within the urban county to affix building, site and/or property numbers as required in sections 17-2 through 17-4.

(b) Any owner of a business or residential structure who, upon being notified by the department of public safety to affix a number upon a structure or other device, shall fail to do so within five (5) days of notification, shall be subject to a fine of ten dollars (\$10.00) for each day thereafter until he or she complies with the order of the department of public safety.

(c) Any owner of any property within the area where fire gate numbers are authorized who fails to notify the department of public safety of any new entrance to such property so that a fire gate number may be placed at said entrance, or any owner of any property within the area where fire gate numbers are authorized who fails to notify the department of public safety when a fire gate number is in need of replacement shall be subject to a fine of twenty-five dollars (\$25.00).

(d) Any person who unlawfully defaces, moves, removes, or causes to be moved or removed any building, site or property number affixed upon a structure or other device or who defaces, moves, removes, or causes to be moved or removed any fire gate number placed by lawful authority, or who maintains a building, site or property number or fire gate number in such a way that it is not clearly visible and identifiable at all times during daylight hours, shall be subject to a fine of twenty-five dollars (\$25.00) for each offense.

(e) Any person who names a private access easement without the prior approval of the department of public safety shall be subject to a fine of fifty dollars (\$50.00). Any person who places or causes to be placed any sign bearing a name not approved by the department of public safety upon any private access easement shall be subject to a fine of fifty dollars (\$50.00) plus a fine of fifty dollars (\$50.00) for each day the sign remains after being notified by the department of public safety to remove such sign.

(f) Any owner of a private access easement who fails to erect regulation street signs in accordance with this section within thirty (30) days from the date the department of public safety approves said request shall be subject to a fine of twenty-five dollars (\$25.00) for each day thereafter until the signs are properly erected.

(Ord. No. 231-89, § 3, 12-7-89; Ord. No. 3-96, § 4, 1-11-96; Ord. No. 329-2002, § 3, 12-5-02)

*95 gallon containers for residential recycling has not yet been implemented but is on the horizon.
 *As of now the thought is to limit recycling pick-up to cardboard & plastic when service becomes available.
 **They own a recycling center which accepts yardwaste, plastics, cardboard, & paper.
 **They fine customer who put trash into recycling containers.
