(Council District 2) **(EA Partners)**

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

Note: The purpose of this amendment is to add an office building and revise the layout of the townhouse area.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. (Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

Note: The purpose of this amendment is to add an office building and revise the layout of the townhouse area.

The Subdivision Committee Recommended: **Approval**, subject to the following conditions:

1. Urban County Engineer's acceptance of drainage, and storm and sanitary sewers.
2. Urban County Traffic Engineer's approval of street cross-sections and access.
3. Building Inspection's approval of landscaping and landscape buffers.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

Note: The purpose of this amendment is to add an office building and revise the layout of the townhouse area.

(Council District 2) **(EA Partners)**

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

Note: The purpose of this amendment is to add an office building and revise the layout of the townhouse area.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

Note: The purpose of this plan is to revise the street and lotting layout. The Planning Commission approved this plan at their October 11, 2007 meeting, subject to the following conditions:

The Subdivision Committee Recommended: Postponement, due to the failure of posting the sign on the property, as required by Article 6-4(j)(6) of the Land Subdivision Regulations.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

2. Addition of a second "Planning Commission Certification" to the plan.

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

(Council District 2) **(EA Partners)**

3. DEVELOPMENT PLANS

- a. DP 2007-134: SAND LAKE & ESTES PROPERTY (AMD.) (2/22/15)* - located at Richmond Road and South Eagle Creek Drive. (Council District 7) **(EA Partners)**

Note: The Planning Commission postponed this item at their December 11, 2014, meeting. The purpose of this amendment is to revise the development and the layout of buildings, reduce the number of lots, and reduce the public streets and rights-of-way.

At the February 28, 2008, meeting the Planning Commission approved this plan and granted the requested waivers to the Land Subdivision Regulations, for the following reasons:

1. The modified cross-section is the result of the site's topography and the requirement that the street be constructed totally within the required 50' right-of-way. The fact that the new street must be constructed at acceptable grades and must tie into the planned intersection with Sand Lake Drive results in a significant grade difference between the finished grade of the street and the adjacent undeveloped property. Therefore, a retaining wall was required, which had to be constructed 11'-12' away from the adjacent property to ensure that the wall's footer, forms, and bracing were totally within the right-of-way. As a result, the road itself also had to shift 11'-12'.
2. The modified cross-section is substantially the same as shown at Exhibit 6-3 because 31' of pavement will be provided. Additionally, curbs, gutters, and a 6' sidewalk will be provided on the northwest side. On the southeast side will be a 4' sidewalk and a 5.5' utility strip, a portion of which will be in an easement on adjoining property owned by Developer.
3. Denial of the waiver would be an undue hardship on the Developer in that the wall was constructed, at substantial cost to the Developer, based on grading plans submitted to and accepted by the Division of Engineering. Furthermore, without the wall it is physically impossible to construct the street within the established 50' right-of-way.

And adding the following proposed note #15 to the plan:

15. The properties at 3292 and 3270 Richmond Road shall be permitted to have vehicular and pedestrian access to the private access easement, which immediately adjoins those properties. This shall be denoted on the final record plat of the property. The owners of said lots shall provide notice to the Developer 21 days prior to the public hearing for a preliminary or final development plan, including amendments, and/or for a preliminary or final subdivision plat for said lots.

Note: The applicant now requests a reapproval of this development plan.

The Subdivision Committee Recommended: **Reapproval**, subject to the original condition previously required by the Planning Commission on February 28, 2008, and two additional conditions:

1. Documentation of Division of Water Quality's approval of the Capacity Assurance Program requirements, prior to plan certification.
2. Addition of a second "Planning Commission Certification" to the plan.

- b. DP 2015-1: SIKURA-JUSTICE PROPERTY, UNIT 6 (POLO CLUB CENTER) (AMD) (3/24/15)* - located at 2945 Polo Club Boulevard. (Council District 12) **(CMW, Inc.)**
