Summary and Motions

Chair Lamb called the meeting to order at 1:00 p.m. All Committee Members were in attendance. Councilmembers Stinnett and Kay were also in attendance.

I. Approval of Committee Summary

A motion was made by Scutchfield to approve the March 1, 2016 General Government & Social Services Committee Summary, seconded by Akers. The motion passed without dissent.

II. Security Cameras in Parks

F. Brown introduced Monica Conrad, Director of Parks and Recreation, to present on this item. Conrad discussed the present use of security cameras by Parks and Recreation. Conrad stated there are currently 49 cameras installed in city parks.

Lt. Mike Wright, a representative from Police, reviewed the advantages and disadvantages associated with installing security cameras in parks. He stated that cameras typically result in decreased property crime, but violent crime rates are unaffected. Wright stated that the existence of cameras typically results in a perception of increased safety. Disadvantages of installing security cameras include a false sense of security if cameras are not monitored live, costs, privacy issues, and heightened suspicion of more crime.

Conrad stated she recommends the development of a taskforce to evaluate the installation of security cameras in parks.

F. Brown stated that he is in favor of taped cameras, rather than live monitoring, to address safety concerns. He discussed the possibility of a pilot program, and asked if there was discussion with the University of Kentucky about their campus cameras. Chief Barnard provided information regarding UK's live-monitored cameras, as well as other cameras throughout the community. He stated that the installation of cameras can be challenging with respect to expectations of privacy, and that community input in the process is important.

F. Brown stated that he is in favor of the development of a taskforce to address this issue.

J. Brown asked if the Police Department is in favor of security camera installation in Lexington's parks. Chief Barnard stated that cameras have value in providing evidence. CM J. Brown stated that he is in favor of recorded cameras rather than live monitoring, and provided recommendations for taskforce members.

Henson asked if the taskforce would recommend camera locations, and create criteria for locations. Chief Barnard provided recommendations, and stated that priorities could be

established for Police presence in parks. Henson stated her support for the creation of a taskforce.

Bledsoe stated her concern for privacy issues related to filming children in parks. She stated her desire to see other options for enhanced safety to be explored, including additional Police patrols.

Akers stated that community input is required to determine the best security solutions for each park. She provided the example of vandalism and crime in parks, and stated that cameras may be of value for evidence. She stated that the taskforce should focus on parks with higher incidence of crime.

Evans discussed concerns with public surveillance, and stated that there must be an identified threat to justify the installation of cameras. She agreed that community input is important in the process and discussed privacy issues.

Henson noted the work of the Safe Parks Taskforce and stated she could send their findings to the Council. Henson noted examples of providing activities in parks to create safe places.

Lamb asked questions related to other cities that were researched, and also asked for input from Law regarding creating a taskforce versus a subcommittee. Lamb noted placing cameras in parks still leaves large areas that would be unmonitored. Keith Horn with the Department of Law provided clarification.

Evans asked for additional clarification regarding taskforces v. subcommittees, and Keith Horn responded that a subcommittee's charge and membership must be made clear.

F. Brown stated that he recommended the installation of a subcommittee and pilot projects within one or two parks. He stated concern for the development of a taskforce, and asked that the item be left in committee until additional information is available. He stated that input should be obtained from Neighborhood Associations.

Lamb asked that the item be brought back to the Committee in July.

III. Council Rules & Procedures

Kay introduced the item, and discussed the history of the topic. He stated that the proposed changes would streamline the Council meeting process, and reviewed the categories that would be included in legislative review.

Gibbs stated that he is in favor of the resolution, and asked for clarification from the Department of Law regarding adding personnel items to the list of categories for legislative review.

F. Brown asked if a Charter amendment would be required to move forward with this item. Glenda George with the Department of Law stated that a Charter amendment is not required to move forward with this item, and proposed consent agenda items would not require two readings.

Evans requested clarification about consent agendas; Glenda George provided explanation regarding consent agenda requirements and approval procedures.

Lamb noted her concern that the Council Clerk's office has not provided input regarding this issue, and that representatives from the Mayor's office have not spoken regarding this item. Lamb stated that the current process provides a level of transparency to citizens, and the proposed Resolution would shift authority for a number of items from the Council to the Administration.

Moloney echoed Lamb's concerns about transparency and stated he does not support the proposal.

J. Brown requested a Council workshop for this item to provide additional explanation, and he stated his concerns for transparency as well as the workload for the Council Clerk's office.

Evans noted that there is a long-term interest in these changes which warrants further discussion.

Lamb stated that resolutions do not require publishing, so reading titles during meetings provides transparency. She stated that this would be a change in meeting format.

Moloney restated his concern that the proposed changes will result in a decrease in transparency.

Kay stated that the proposal does not change the authority of the Council and that the same level of transparency would remain. Kay asked that the item be left in Committee with input from the Council Clerk at a future meeting, as well as additional input from Law.

Henson stated the readings during Council Meeting are meant as a transparency for the public and she does not feel they are ready to take action on this item.

Bledsoe asked for further clarification and Lamb stated that state statute requires anything in the form of an ordinance or resolution must be read aloud.

Lamb stated that this issue would be reconsidered by the Committee in June or July.

IV. Boards, Agencies & Commissions – Membership, Vacancies, Etc.

Scutchfield introduced the item, and reviewed the information provided in the packet. She asked for Committee input regarding the information included in the quarterly report.

Lamb asked if this information will be provided online, and asked for an update regarding software for tracking membership and vacancies. Commissioner Reed stated that staff are working on that issue, and will be providing an update at a future committee meeting

Scutchfield requested that updated Board and Committee information be available on a quarterly basis.

A motion was made by Scutchfield to remove Boards, Agencies & Commissions from Committee, seconded by Henson. The motion passed without dissent.

V. Location & Broadcasting of Council Meetings

Scutchfield stated that meetings open to all Council Members should be held in Council Chamber so the meetings can be broadcasted.

Bledsoe asked for clarification regarding this item, and provided the example of the quarterly Committee of the Whole meetings. CM Scutchfield stated that Council must develop criteria for broadcasting meetings.

Lamb stated that we must ensure that GTV3 can cover all of the meetings being proposed. CAO Hamilton stated that GTV3 has confirmed that all meetings of the Council can be broadcast.

Henson stated that this topic should be an agenda item for the Committee of the Whole.

Akers stated that items requiring quorum and Council action should be in Chamber and broadcast, while workshops and similar meetings do not necessarily require broadcasting.

Kay agreed that this item should be considered by the Committee of the Whole, and asked if the upcoming Budget Committee of the Whole meeting should be held in Council Chamber and broadcast. Lamb noted that public notice is provided for all Council meetings.

Scutchfield stated that meetings should be held in Chamber and televised if possible.

A motion was made by Scutchfield to move the item to the Committee of the Whole, seconded by Evans. The motion passed without dissent.

VI. Items in Committee

A motion was made by Scutchfield to adjourn, seconded by Akers. The motion passed without dissent.

7.0 SOURCE SELECTION: PERSONAL/PROFESSIONAL SERVICES

As used in these regulations "Personal/Professional Services" shall mean services whereby an individual, firm, partnership or corporation (the "Consultant") is to provide LFUCG certain services requiring professional skill or judgment.

~~The~~ LFUCG will only procure Personal/Professional Services if LFUCG personnel are not available or if it is not feasible for LFUCG personnel to perform the service. ~~The Division of Central Purchasing~~ ("Purchasing") shall determine whether any LFUCG personnel (regardless of Department or Division) can reasonably provide the needed service prior to initiating the Personal/Professional Service procurement procedure provided for herein. If a dispute exists as to the necessity of acquiring the services from

outside the LFUCG, the decision to proceed will be made by the Chief Administrative Officer.

The retention of Personal/Professional Services pursuant to these regulations will not be used if as a result of the procurement there would be established an employee/employer relationship between the LFUCG and the service provider or its employees or agents. An employee/employer relationship exists when the LFUCG has the right to direct and control the worker in the way he works, both as to the final results and as to the details of when, where and how the work is done.

The acquisition of commodities or biddable services may not be undertaken through the "Personal/Professional Services" process provided herein.

The provisions of these regulations shall not apply to any purchase constituting an emergency within the meaning of KRS 424.260.

It is not the intent of these regulations to eliminate the ability of LFUCG to advertise, as appropriate and in accordance with any applicable publication laws, any announcement soliciting general letters of interest from those parties who may be qualified to perform various Personal/Professional Services on behalf of LFUCG.

These regulations shall not limit LFUCG's ability to pursue the acquisition of Personal/Professional Services pursuant to state law, in which instances the LFUCG may elect to follow those provisions in lieu of these regulations, or modify these regulations as necessary to accommodate the process and procedure provided pursuant to the law.

These regulations shall not limit the LFUCG's ability to create a specific program or programs which are limited to certain categories of participants, including but not limited to local small businesses.

7.1. Procurement of Personal/Professional Services of \$20,000 or more

~~A7-1.~~ The procurement of architectural, engineering services may be undertaken either through a Qualifications Based Selection (QBS) Process or the RFP process depending on the funding source for the project. Additionally, the LFUCG may choose to utilize a "design-build", "construction management-at-risk", or "construction manager-agency" method for the management, design and/or construction of a particular construction project. In doing, so LFUCG shall model its processes and procedures after those adopted by the state or federal government.

~~B7-2.~~ All departments/divisions requiring Personal/Professional Services must submit a written request form to Purchasing. The request should be submitted well in advance of the need for the services as the procurement process for Personal/Professional services typically requires considerable time to complete. In most instances the entire process takes at least 60-90 days.

Formatted: Indent: First line: 0"

- 1a. The request must be signed by the appropriate Director or Commissioner and include a description of the services desired, the estimated amount of work involved, the estimated cost per fiscal year, and the appropriate contact person who is able to answer any questions or provide any additional information .
- 2b. Requests for legal services, auditing services, computer services, or other area of expertise for which LFUCG has professional employees on staff__ will be submitted by Purchasing to the appropriate department or division for a determination as to whether the services can or should be performed by LFUCG personnel.
- C.7.3. Purchasing will review the request form and any additional information submitted to determine whether to proceed with procuring the services.
- D7.4. If the decision is made to proceed with procurement, Purchasing will work with the requesting department/division and any other necessary LFUCG personnel to develop the appropriate Request for Proposal (“RFP”) and any other necessary documents, including an agreement for services.
- E7.5. Purchasing will issue a RFP to solicit proposals for the services required. Each RFP shall at a minimum describe the services required, list the type of information and data required of each offeror, and state the evaluation factors or criteria.
- E7.6. Purchasing will distribute the RFP, giving adequate (and any legally required) public notice of the need for services, which may include newspaper advertising and other means when available such as placing a notice on the LFUCG Economic Engine data base. The notice will contain, at a minimum, a brief description of services requested, estimated amount of work involved, and the name of the person to contact in order to obtain additional information and a copy of the RFP.
- G. 7.7. Upon receipt of the responses to the RFP, Purchasing may conduct discussions with any offeror submitting a proposal to determine the offeror’s qualifications for further consideration but such discussions shall not disclose information derived from another offeror’s proposal. If discussions are conducted with offerors for purposes other than to secure qualification information, the same discussions must be conducted with all offerors.
- H7.8. Purchasing will appoint a proposal evaluation committee comprised of LFUCG officers or employees. Purchasing has the discretion to appoint representatives of other entities (i.e., state or local governments or educational institutions) if such representation would be of value to LFUCG. However, under no circumstance shall a party with any conflict of interest be appointed. In most instances a private party or citizen would have a conflict of interest.
- I7.9. Purchasing and the evaluation committee shall review the proposals received and record the committee’s final determination of the qualification rankings of the offerors

based on the evaluation factors or criteria set forth in the RFP. This written determination shall be maintained by Purchasing.

J7.10. After determining the best qualified offeror(s), Purchasing or the requesting department/division (with assistance from Purchasing) will negotiate the fair and reasonable compensation for the provision of the services with the selected offeror(s).

- 1a. In instances involving a single unique project or in which LFUCG intends to only retain a single prime consultant to perform the services, negotiations will take place with the best qualified offeror. If a final agreement cannot be reached, negotiations may then be conducted with the other offer(s) in the order of their respective qualification ranking.
- 2b. Purchasing and the department/division requesting the services may determine that it is in LFUCG's best interest to create a list of multiple consultants which are pre-qualified, as defined by the advertised scope of services, to work on multiple projects which are similar in nature. In those instances, negotiations with consultants for a specific project may occur simultaneously, and the entity submitting the lowest price while meeting the intent of the specific project scope will be selected. The specific process that is used for such selections must include a component or components which is intended to avoid the same consultant(s) being awarded all of the projects and provides each consultant on the list with the opportunity to negotiate for a project, but not necessarily all of the projects. An example of this would be a process in which the list rotates in a manner in which a Consultant previously awarded a similar project is placed at the end of the list.

K7.11. The requesting department/division in coordination with the Department of Law and Purchasing will generate ~~documents an agreement for services~~ which includes an agreement, the scope of the services to be performed, the compensation for such services, and all other terms and conditions agreed upon, which shall also include, at a minimum the following:

- 5e. A provision that Kentucky law applies to interpretation of the agreement and any disputes and that venue shall be in Fayette County, Kentucky;
- 6f. A provision that the services cannot be assigned without the prior approval of the LFUCG;

Formatted: Indent: First line: 0"

~~7g.~~ Any indemnity and insurance requirements deemed necessary by the Department of Law or the Division of Risk Management; and

~~8h.~~ Any other necessary provisions from the RFP.

~~L7.12.~~ All agreements must be signed by a representative of each party having the legal authority to bind that party to the agreement. The Mayor will sign all agreements on behalf of LFUCG unless legal authority has otherwise been provided for someone else to obligate the LFUCG to the terms of the agreement. If a final agreement cannot be reached with the best qualified offeror, negotiations may be conducted with other offeror(s) in the order of their respective qualification ranking.

~~M7.13.~~ LFUCG may make payments for services under the agreement once final approval is obtained, but shall not pay in advance of receipt of services.

~~N7.14.~~ Legal services (including the retention of expert witnesses) or professional services related to the issuance of bonds or debt service may be obtained by using a Request for Qualifications (RFQ) or similar process which ensures that qualified individuals or firms are duly considered prior to retention by LFUCG.

7.2. **Procurement of Personal/Professional Service of Less Than \$20,000**

A. If the Personal/Professional Services required is less than \$20,000, the department/division may informally solicit proposals, make a determination of the best qualified provider and establish a Personal/Professional Service Agreement if necessary. At a minimum, the department/division must use a Personal/Professional Service Scope document and have the provider sign and submit the documents to Purchasing for processing. The submittal to Purchasing must also include the proposals received and considered by the department/divisions and a properly authorized On-Line requisition requesting Purchasing to issue a purchase order.

B. As an alternative, the department/division requiring the services may submit an On-Line Requisition to Purchasing and forward the services required scope. If this process is used, Purchasing will communicate with the department/division for any additional information necessary to complete the process. Purchasing will also generate a purchase order authorizing the provider to begin work and allowing payments to be processed.
